ROLEDS

GOLF MatriX
LED Linear Light & Wall Washer

One City Lit By One Light

FULL SCENE LIGHTING SOLUTION

GOLF

ROLEDS Golf series integrates cutting-edge science, intelligent technology, optical innovation, and color mixing technology to enhance outdoor lighting and highlight the strength and beauty of cities. Building on 20 years of independent R&D, this series reflects ROLEDS' unwavering commitment to superior light quality. Empowered by digital manufacturing technologies, the Golf series improves both the performance and stability of lighting products, meeting the evolving demands of global urban development. Its focus is to light up cities, transforming them into vibrant, comfortable, and stylish spaces.

MatriX

Inspired by LEGO, the ROLEDS MatriX series launched with the concept of "Infinite in possibilities, yet true to its core". From version 1.0 to 7.0, the series has focused on standardization, modularity, flexibility, and innovation. Through continuous advancements, we've introduced industry-leading products like the "Kilowatt MatriX," "Colorful MatriX," "Smart MatriX," and "Ultra-Narrow Beam MatriX." These products are widely used in diverse applications, from urban architecture and gardens to cultural tourism and smart interaction, bringing cities to life, one light at a time.
