Matri**X**

Inspired by LEGO, the ROLEDS MatriX series launched with the concept of "Infinite in possibilities, yet true to its core". From version 1.0 to 7.0, the series has focused on standardization, modularity, flexibility, and innovation. Through continuous advancements, we've introduced industry-leading products like the "Kilowatt MatriX," "Colorful MatriX," "Smart MatriX," and "Ultra-Narrow Beam MatriX." These products are widely used in diverse applications, from urban architecture and gardens to cultural tourism and smart interaction, bringing cities to life, one light at a time.

One City Lit by One Light
